GERMAN PROGRAM AT BERRY COLLEGE

- We offer a varied curriculum that provides our students with a comprehensive instruction in German language, culture, history, film, literature, as well as Business German. All courses are designed to expose students to a wide range of authentic material, giving learners the opportunity to receive a thorough understanding and knowledge of past and present-day life in Germany, Austria, and Switzerland.

- All courses in the German Program, from introductory language classes to upper-level seminars, adhere to the methodology of communicative language teaching by which students acquire a foreign language as early as their first year.
The German Program offers both a major and a minor. The course series begins with lower-level and intermediate-level language classes, and progresses to culture, film, literature, as well as Business German classes. The majority of majors are double majors who, in the past, have gone into fields as diverse as teaching, foreign service, and banking.

GERMAN MAJOR and MINOR REQUIREMENTS:

- GER 101  Introduction to German Language and Culture I
- GER 102  Introduction to German Language and Culture II
- GER 200  German in Review: Language, Culture, History
- GER 301  Communication, Interpretation and Cultural Awareness I
- GER 302  Communication, Interpretation and Cultural Awareness II
- GER 303  Introduction to Major Works and Authors in German Literature

Plus electives on the 300 and 400 level

German Studies at Emory
AATG Center of Excellence

✓ Mentorship
Classes are kept small to allow for personal relationships with professors, which equates to more informed letters of recommendation for business school, grad schools, and future jobs. Majors and minors can also network with the German-speaking business community in Atlanta through our mentorship program.

✓ Advanced language abilities
The German Studies Department is a designated National Center of Excellence due in large part to its undergraduate curriculum that develops advanced language abilities, opening doors to international careers as well as graduate educational opportunities in the German-speaking world where there is little to no tuition.

✓ Study abroad
Study for a semester in Berlin, Vienna, or Freiburg or in Vienna during the summer. Courses taken abroad count toward the German major and can accelerate completion of the major or minor. In our Vienna summer program, now in its 41st year, students live with host families and study German in one of Europe's great cities. Scholarships available!
German Studies at Emory
AATG Center of Excellence

✓ Internships

German majors and minors are eligible for the popular AmCham internships, which place several Emory students in paid positions with companies in Germany every summer.

✓ Research opportunities

Our faculty is eager to have students conduct research in German Studies and make scholarly connections with other disciplines on campus. Almost all Emory German majors have a double major, and we can help you develop a research agenda that bridges your different fields of study.
German at Georgia Tech: Major, Joint Majors, Minor, Certificate

German at Mercer

- Courses offered at the elementary, intermediate, minor and major levels
- Curriculum based on developing your understanding of German customs, culture, literature, and history through authentic texts
- Emphasis on cultivating proficiency in speaking, reading, writing, listening
- B.A. degree contingent on passing the B1 level of proficiency on the Goethe-Zertifikat as well as a comprehensive exam covering German culture, history, and literature
- Study-abroad opportunities in Marburg and Bamberg

The German program at Mercer University is fantastic! The class sizes are small, which means that students often receive individualized attention and develop strong connections with their professors. Also, the exchange in Marburg was one of the greatest experiences of my life. (Ayren Selzer, high-school teacher of Spanish and German)
German Studies Minor, Study Abroad, and Internships at Piedmont College, Demorest, Georgia
Each fall, the department has a social where you can relax, eat, and have fun with the department!

Get involved with Kaffeestunde, a weekly coffee hour to practice your German!

UGA Offers a German Major AND Minor!

Study abroad in Freiburg over the summer, or participate in an internship or exchange program in one of 5 partner universities!

2014 German Theater Class production of “Die Physiker”

Stammtisch - Regular Conversation Tables with food!
• **UGA offers both a German Minor and Major**
  – The relatively small size of the program makes it ideal for those wishing to have a minor, and many choose to double major
  – Students not only acquire language proficiency, but also develop a deep understanding of German culture

• **The department now offers a Dual German and Engineering Degree Program**
  – 5 year program resulting in a degree in German as well as one of 6 different Engineering degrees
  – 4th year spent abroad at the Goethe Institute and Karlsruhe Institute of Technology
  – Includes an Internship with a German engineering company
Study Abroad in Germany through UGA

- **Exchange Programs 5 German Universities**
  - UGA has exchange agreements with partner universities in Heidelberg, Erlangen-Nuremberg, Zurich, Rostock, and Bamberg.
  - Full academic year abroad

- **UGA Study Abroad in Freiburg**
  - 4 week intensive language study during the summer
  - Discover the “Green City” and its efforts in sustainable energy practices, environmentalism, and renewable resources.
  - Departmental Scholarships Available
